Printing and Framing - Please contact me for a full pricing menu, including framing, mounted prints and gallery-wrapped canvas pricing. There are too many wonderful options to cover here on this page. The risk of not having me do the printing is you may never print the images I deliver to you, or you print them in a place where the colors are off. I know how to professionally print photographs but clients often do not. So, when a client does get them printed, often they look cheap once hanging on their walls. I recommend an in-home home consultations so can help the client pinpoint where they want the art on their wall and style. Ultimately, you will end up with an awesome print that hangs in a special spot in your living room.
